MISSISSIPPI ONLINE PRE-LICENSING EDUCATION AGREEMENT – PROVIDER

The following agreement must be signed by the auctioneering school and returned to the Commission.

The Mississippi Auctioneers Licensing Commission has approved a pilot program providing schools the ability to provide pre-licensing auctioneer education online or other distance-learning methods. The approval of the school's ability to provide pre-licensing education requires you to agree, in writing, to the following restrictions:

1. The school submits a written request to provide pre-licensing auctioneer education online to the Mississippi Auctioneers Licensing Commission to be approved by the Commission. This request must specifically state any differences between the school's live and online curriculums.
2. The school realizes the Commission has the right to periodically check on the status of the education, including the right to determine any changes in curriculum, grading methods, or anything else which may be determined by the Commission.
3. The Commission reserves the right annually, to review schools again to determine whether the educational goals of the program have been met and whether, as a result, the program is continued or suspended.
4. A Student Agreement, provided by the Commission, is to be added to the enrollment process for online schools and signed by any enrolling Mississippi resident stating they realize that they may not be granted a license in another state due to completing online auctioneer education. The actual statement signed by the students must be the one provided by the Commission.
5. The school must submit monthly the signed disclaimers of Mississippi residents enrolled in their online school. These disclaimers may be submitted via email, fax or regular mail.

I have read and signed this document on this date: _____
